KLINGER SENTRY SR

Reverse Integrity Gaskets

A safe, high integrity seal that provides operators with the ability to test the integrity of a clamped connection. The Sentry SR helps reduce the requirement of large volumes of Nitrogen or other test medias and reduce down time significantly, whilst maximising plant up time, efficiency and safety when carrying out integrity and pressure tests.

APPLICATIONS

Specifically designed for Hub / Clamp Connections to provide reassurance that the seal ring has been installed correctly within the hub unit. Based on original seal ring dimensions the Sentry SR has been rated upto 5000psi by global operators.

ASSOCIATED EQUIPMENT & SERVICES

Sentry Test Plug

Sentry Test Pump

All information is based on years of experience in production and operation of sealing elements. However, in view of the wide variety of possible installation and operating conditions one cannot draw final conclusions in all application cases regarding the behaviour in gasket joint. The data may not, therefore, be used to support any warranty claims. This edition cancels all previous issues. Subject to change without notice.

Certified acc. to DIN EN ISO 9001:2015 Subject to technical alterations.
